# Maksym Honcharenko

Kyiv | nacknime.official@gmail.com | in | ✈ | ⌂ | ⊕ |

Professional Summary

Middle Software Engineer with 4 years of experience in backend development.

Prioritize readability, maintainability, and extensibility in my code in all projects.
Skilled in finding valuable information from challenging sources.

Passionate about open-source development: contributed to several libraries and have a popular open source pet project.

I use Arch (btw). neovim, sway (wayland), thinkpad and stuff like that.

Work History

Backend Developer, 01/2022 to 03/2023
INC4 – Kyiv
Blockchain technology development company
- Learned concept of blockchain technology.
- Learned basics of Solidity and JavaScript programming languages.
- Served as one of the main developers on Ambrosus Bridge.
