PROFESSIONAL SUMMARY

Middle Software Engineer with 4 years of experience in backend development.

Prioritize readability, maintainability, and extensibility in my code in all projects.
Proficient in finding valuable information from challenging sources.

Passionate about open-source development: contributed to several libraries and have a popular open source pet project.
I use Arch (btw). neovim, sway (wayland), thinkpad and stuff like that.

WORK HISTORY

Backend Developer, 01/2022 to 03/2023
INC4 – Kyiv
Blockchain technology development company
- Served as one of the main developers on the [open-sourced **AirDAO Bridge**](#) project
